

MHP 12/34J

The Snorkelift trailer mounted articulating boom aerial work platform has an all-steel boom construction, including a jib boom for extra versatility and outreach.

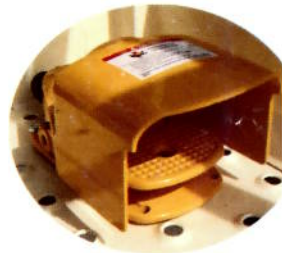

Variable function speed control at platform and base controls for safe precise manoeuvring at the job-site

Reliable gasoline engine, with alternative diesel and electric power sources available

High strength all steel base, with independently operated hydraulic outriggers

Heavy duty dead-man foot-switch in platform

Versatile jib boom. Optional rotator not shown

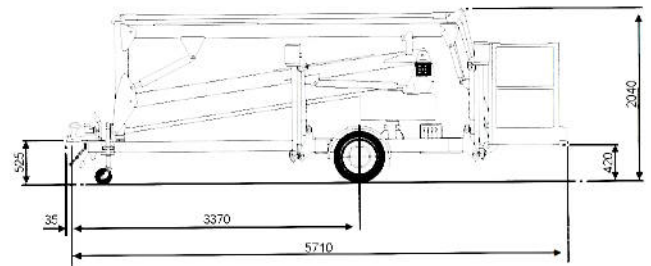

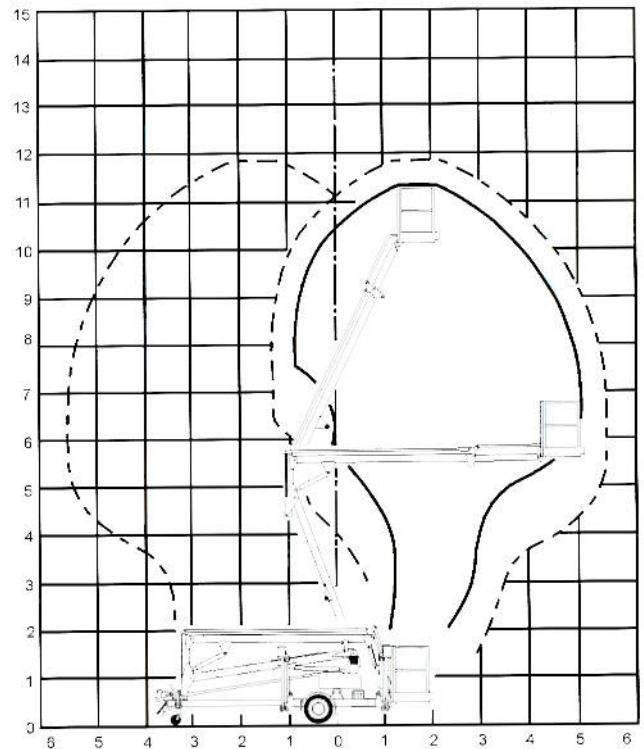

Steel draw-bar with heavy-duty tow hitch, and easy swing away jockey wheel

MHP 12/34J

SPECIFICATIONS

Working Height	12.4m	40'8"
Platform		
Height	10.4m	34'1"
Capacity	200kg	440lbs
Size	120x76x115cm	4'x2'6"x3'9"
Construction	Aluminium	
Levelling	Mechanical	
Boom Construction	Steel	
Boom Type	Articulating	
Horizontal Reach	5.4m at 5.65m	17'9" at 18'6"
Turntable Rotation	550° non-continuous	
Power Source	Gasoline engine 5.5hp	
Hydraulic System	Proportional electro hydraulic system. Live hydraulic stabilisers. All cylinders equipped with holding valves.	
Stabilisation	4 x independently operated hydraulic outriggers with safety interlocks.	
Standard Colour	White boom/Snorkel orange base.	
Travelling Height	2.04m	6'8"
Overall Length (stowed)	5.71m	18'8"
Overall Width		
Outrigger (retracted)	1.55m	5'1"
Outrigger (extended)	3.50m	11'5"
Tyre Size	165R x 13LT	
Brakes	Hydraulic disc	
Weight (approx)	1,160kg	2,558lbs
